HOCKEY ACADEMY

Entry Requirements:

This course is not assessed and therefore does not have a specific entry requirement.

Is this for me?

Players of all levels are welcome to join the Academy whether you are County level and above or new to hockey. This is a new innovative and exciting programme which has been developed in order to provide opportunities for players to improve as hockey players, while continuing with their Post-16 studies.

The academy's vision is to create a fun, positive and rewarding environment, where players can be creative and dynamic, whilst making decisions based on the information they see and interpret.

This course will also complement other Post-16 Sports Offer courses such as AS & A2 Physical Education, BTEC Level 3 Sport, VTCT Level 3 Sport Studies, VTCT Level 2 Fitness Instructor, Outdoor Education BTEC Level 3 and Duke of Edinburgh's Award.

What will I do?

The aim of the Hockey Academy is to challenge every player to achieve their highest potential both on and off the Hockey field by honing their skills and preparing for matches both within the college and for their clubs.

The hockey team train each week and will be based at the Bodmin Dragon Leisure Centre. The Academy will look to have matches against other 6th forms and colleges.

The College constantly looks to respond to student input and this initiative adds to our current academy offer of Football, Rugby, Hockey and Netball.
