

### NCFE CACHE Level 2 Technical Occupational Entry for the Early Years Practitioner

Do you love working with children? Are you creative, caring, patient – and full of fun?

This one-year course gives you hands-on experience in both childcare settings and primary schools, helping you build real skills while working as part of a supportive team dedicated to helping children thrive.

You'll build up towards splitting your week between BCX and a work placement, combining practical experience with engaging theory lessons. You'll learn everything from supporting babies and toddlers to planning activities, preparing food, and creating exciting play and learning environments.

You'll be taught by experienced teachers who will support you every step of the way as you prepare for a career in education and childcare.

#### Assessment

- Both internal assignments and external assessment, plus work-based assessments.

#### Course Structure

- One year, full time. Initially full-time at BCX, building to a mix of time at BCX and time on a work placement.

#### Entry Requirements

- You will need a GCSE grade 4 in at least English or Maths, and be committed to achieving the other while at BCX. An enhanced DBS will also be required for placements, but you will be supported to obtain this.

#### Progression and Future Opportunities

- By the end of the course, you'll be ready to progress to the T Level in Education and Early Years or move into an apprenticeship, paving the way for a career in education and early years.

# GROWING YOU

BCX is not just about studying - it's about developing and growing as a person.

At BCX experience will prepare you for life.

Our **GROWTH** programme focuses on six key areas to help you become your best self.

## G

### GIVING BACK

Engaging with your community through volunteering, mentoring, and social action.

Think leadership, care, and being a role model!

## R

### RESILIENCE AND WELLBEING

Building mental strength, emotional awareness, and healthy habits.

Mindfulness, mental health awareness, and staying mentally strong.

## O

### OPPORTUNITIES TO ENRICH

Exploring new ideas, challenges, creative projects, and cultural experiences.

Competitions, entrepreneurial projects, trips and creativity.

## W

### WORK AND LIFE SKILLS

Preparing for independence with careers advice, financial literacy, and life skills.

Careers guidance, understanding banking and budgeting, and skills to succeed.

## T

### TECHNOLOGY AND DIGITAL SKILLS

Developing confidence online, digital literacy, and IT capabilities for the future.

Safe social media, digital content creation, using computers for study and work.

## H

### HEALTH AND PHYSICAL ACTIVITY

Staying active, healthy, and energised through sport and fitness.

Sports teams, clubs, trying new activities, nutrition, and health lifestyles.
