This risk assessment covers the risk control measures in place ahead of full reopening from 3rd September 2020. It covers the measures in place above and beyond the usual control measures already in place, such as hygiene during food preparation or intimate care.

These measures are based on current government guidance (as of date above):

- [Guidance for full opening: schools](#)
- [Guidance for full opening: special schools](#) (this includes guidance on students with EHC plans that should be useful for mainstream schools as well)
- [Actions for education settings to prepare for wider opening](#)
- [Implementing preventative measures in education settings](#)
- [Guidance for secondary school provision](#)
- [Safe working in education settings](#)

It covers contextual information specific to Bodmin College such as:

- The number of staff and students we expect to have in, including any increased risk in the students or staff that will be in school particularly those who are at higher risk of contracting or becoming seriously ill from coronavirus (e.g. BAME staff, advice taken from [BAMEed](#), [RCOG](#) and [Gov Disparities and Risk](#))
- Any reasonable adjustments required to enable everyone to follow the measures, including students with EHC plans who have their own [individual risk assessments](#) already (e.g. designing approaches to help children with challenging behaviour who may struggle to follow the rules)
- The size and layout of our school premises
- The resources we have in stock or can order easily (e.g. PPE, soap, cleaning products)

In writing this we have consulted:

- Independent legal experts
- Local Authority
- Staff, particularly any union representatives and will communicate measures with staff, students and parents as appropriate.
